

Student Employee (m/f) for IT wanted!

Scio GmbH is a consulting company in Erlangen. Our solution portfolio contains professional services, consulting and training products, as well as our software for organization Scio Effektum.

For our growing web development team, we are looking for a committed student employee.

Your profile:

- Expertise in HTML and CSS
- Expertise in Web Development with JavaScript. Additionally, TypeScript is favourable
- Expertise with Angular-Framework (Version 2 and later) is favourable, but can also be acquired on the job
- First expertise with software testing and test management is favourable

Your range of duty:

- Web development tasks
- Assisting in the test management of our distributed software solution
- Assisting in documentation tasks

Our offer and contact:

Scio GmbH offers you the opportunity to get familiar with all steps of modern software development. A later permanent employment is not excluded.

We offer an appropriate salary, an attractive working place at our location in Erlangen and a fast integration into our young and committed team.

Please send your application with your possible entrance date and questions with the subject "Application as a Student Employee for IT" to markus.wolff@scio.eu

Your contact: Markus Wolff, Scio GmbH, Phone: 09131/5302161
